

# Cloud Cost Optimization

Dramatically reduce your operating costs - without risk!

Enterprise Cloud expenses are substantial and growing rapidly. Optimizing the costs of the cloud is therefore a one of the top priority for organizations.

With wenvovate's cloud cost optimization, these costs can be reduced by up to 80%, performance improved and complexity minimized.

The most up-to-date, intelligent machine learning algorithms and fully automated web services are used. The costs for cloud computing resources and many services based on them, such as container clusters are dramatically reduced. We put great emphasis on very high performance and availability. The management of this service is very simple and easy to use.

## Cloud Cost Optimization with wenvovate

### Cost reduction of up to 80% on AWS, Azure and GCP

wenvovate Cloud cost optimization reduces costs for virtual machines and other services.

### Automatic Scaling

The use of auto-scaling and machine learning algorithms - e.g. to identify and automatically replace expensive VMs, helps to optimize applications in terms of cost, availability and performance.

### High availability - at reduced costs

With wenvovate Cloud cost optimization, high availability and stability of your applications are maintained. The costs for resources are drastically reduced.

### Easy implementation - full control

wenvovate Cloud Cost Optimization can be easily and quickly integrated into existing workloads and deployments which immediately help in reducing costs. From hands-on access and configuration to full automation, you will have full control over the service.

## About wenvovate

wenvovate GmbH, based in Wolfsburg, Munich, Hanau and Essen, is part of the FERNAO Networks group of companies.

We combine the areas of competence in Cloud, Internet of Things, Information Security, Engineering and offer IT as well as technical and professional project management support from a single source.

In addition to automobile manufacturers and suppliers, our customers include banks, energy suppliers and eMobility service providers.

## Why wenvovate?

- You will receive support in cloud topics for hybrid, private and public cloud scenarios and use cases.
- wenvovate offers comprehensive support and solutions in the cloud from cloud strategy to migration, security and secure operation.
- wenvovate provides highly specialized services for Next-Generation Security and GRC topics.
- In addition to cloud cost optimization, we also offer other cloud optimization options such as workload optimization, process optimization and application analysis.
